Finding of the study are: Qualities of mother as motivator are Kind, tolerance, have patient, selfless, have feeling to give service, religious, peaceful, soft hearted, polite, hardworking, mixing nature, simplicity, loving, positive thinking, helping nature, emotional, accurate, strong will power, skill of cooking, maintaining social relationship, wariness regarding her child. Helpful in teaching, gain higher education, have high aim, gave knowledge of religious books, have carrier as teacher, give instruction to read, taken care of child interest, reading, educational problem, make them understand regarding importance of education, promote child to take part in co-curricular activity, Praises through word and instruction related life.

Introduction

Motivation is the desire or drive within a person to achieve some goal. Within is the operative word here, for motivation is an inner condition based on a person's perceptions and needs. The term "motivation" derives from the Latin word movers, "to move". It is virtually impossible to determine a person's motivation until that person behaves of literally moves. Mother's role as a motivator is challenging for her child's educational development. Researcher used self made rating scale and Essay as tool which includes motivational points.

Objective of the Study

The following objectives were formulated for the present study.

1. To know qualities of mother as motivator for B.Ed. trainees.
2. To know thoughts of mother as motivator related to Education.

Population and Sampling procedure

Mother as motivator of B.Ed. trainees of academic year 2012-13 affiliated with VNSGU, Surat were the population for the present study, whereas 147 trainees of 10 B.Ed. colleges affiliated with VNSGU, Surat were selected by Purposive sampling technique as a sample for present study. Also all 147 B.Ed. trainees had chosen mother as motivator for education in Rating Scale.

Tool of the study

Researcher used self made rating scale and Essay as tool which includes motivational points.

Delimitation of the study

The present research was delimited to 10 B.Ed. Colleges of VNSGU, Surat and 147 trainees and their mothers of academic year: 2012-13.

Data Collection

First of all, the researcher took permission from selected B.Ed. colleges' principals through letter and phone for data collection. Then, she went personally to the colleges one by one on decided day and gave oral instructions to the trainees for fill Rating scale. After that all 147 B.Ed. trainees were assigned to write an essay.

Data Analysis

It is a qualitative research. So researcher were used content analysis method for the analysing the data. Researcher divided the data in four sections. They are as follows:

1. Qualities of mother

Kind, tolerance, have patient, selfless, have feeling to give service, religious, peaceful, soft hearted, polite, hardworking, mixing nature, simplicity, loving, positive thinking, helping nature, emotional, accurate, strong will power, skill of cooking, maintaining social relationship, worriless regarding her child.

2. Verbal Motivation

- We are not learned but we advised you to be a learned person.
- Stop not till, the goal is not achieved.
- Do not lose your faith in any situation, you will definitely get success.
- Read, write and to pay attention in learning.
- First you learn, then marriage.(For girl)
- Always be a self depends, therefore you don't have to take help of others.

3. Educational Motivation:

Helpful in teaching, gain higher education, have high aim, given knowledge of religious books, wake up in the night while her child is reading, to have carrier as teacher, give instruction to read, taken care of child interest, give guidance regarding educational problems, do all household work while her child is reading, take care of all the small things, make them understand regarding importance of education, promote child to take part in co-curricular activity.

4. Motivation for living quality life

Don't do unnecessary argument, give respect to the elders, give value education, developed the habit of saving money, point out their mistake, solve the problems of practical life, give service to others, face the problem, fight against your fear.

Major findings

1. Kind, tolerance, have patient, selfless, have feeling to give service, religious, peaceful, polite, hardworking, simplicity, loving, positive thinking, helping, emotional, accurate, strong will power, maintaining social relationship, worriless regarding her child are the qualities of mother as motivator for B.Ed. trainees.
2. Thoughts regarding verbal motivation, educational motivation and thoughts regarding living quality life are given by the mother as a motivator for B.Ed. trainees.

Educational implications

1. Mother is always at the top for giving motivation to children for education. They should motivate their children for all round development.
2. Mother develops values in her child.

3. Mother solves the problem of her child related with education and personal life.
